

## By2020 conference

### Session 11: The climate justice movement after autumn

Room 2

Main Questions:

- **i) What are the priorities for 2021?**
- *think about: objectives, targets, etc*
- - connect with more movement: anti racism, feminist
- - keep escalating
- - platforms are helpful
- - be back in the media
- - getting more people: in NL mostly from cities and not country side/ farmers on right wing but would be good to unite ==> merge gap city/country-side (farmers)
- - focus on institutions (IMF, world bank)
- **ii) What tactics are missing to win?**
- - 1,5m distanced protests
- - getting more in political life --> lasting change
- - invest in GA
- - system change: strengthen discourse --> get more experts support
- - building alternative world we want --> actual build solution
- - sunrise movement: green new deal
- - coordinated actions EU: strikes
- **iii) What types of space do the climate justice movement need?**
- Think about different parametrs as:
  - a) Coordination: *At what level (local, regional, global)? With whom?*
  - b) Decision power of the space
  - c) Organization: *Managed it by the groups themselves? by a core team of activists?*
  - d) Escalation
- space to coordinate & discuss alternative world EU --> WG?
- 

**Note Taker: Monique**
