Session 11: The climate justice movement after autumn

Room 1

Main Questions:

- **i) What are the priorities for 2021?**
- *think about: objectives, targets, etc*
- sloth: Make it bigger/know by the public/more spread - I didn't much about it; (Join 2 months ago)
- Antonio: decentralize our activities, we have to make a global movement beyond Europe; we need to fight the fight side by side with the south global
- Mariana: we had waves of escalation, we need to use this momentum to make next steps, taking into considerations regional context, but still we need to push for more radical solution, we need to stop blocking things that harm, otherwise we say but not doing escalation. we need to make sure that when people are looking for solution outside of system they look at us, not far right
- Olga: continue to build up escalation; Even if political solutions are made, they will not be enough; there are a lot of false solutions; More coordination and connection between movements; Think that there is already a global movement; we need to coordinate with other regions and between groups/movements and bring that info for our local communities, our social media
-
-
- **ii) What tactics are missing to win?**
- Olga: better digitally -> to reach more people and more people hear about us.
- Antonio: We have to invest a lot online; We can win with social movemtns so we need that work and coalition
- Mariana: to find way to engage people who are not activists, something similar to marches but with more escalation, but still accessible for wider public
- sloth: interconnect and stand together more with workers, esp from FF industries, to make sure they do not see us as enemies but allies, it's strong message when it comes from them (just transition)
-
-
-
- **iii) What type of space do the climate justice movement need?**
- Think about different parametrs as:
 - a) Coordination: *At what level (local, regional, global)? With whom?*
 - b) Decision power of the space
 - c) Organization: *Managed it by the groups themselves? by a core team of activists?*
 - d) Escalation

Note Taker:
