Mass Protest**

# Structure Based Organising

---

# Key Features of Structure Tradition

- Deep Leadership Development and 1on1s
- Concrete, winnable demands targeted at decision makers
- Strong organisations → organised people and organised money

---

Frances Fox Piven

# Mass Protest

Martin Luther King Jr

# Key Features of Mass Protest

- Grows through moments of the whirlwind, and sometimes also fizzles quickly
- Broad demands that speak to high ideals that are not necessarily “winnable”
- Mass escalating, nonviolent direct action

# Two Views of Power

## Monolithic Power

## Social Power

## STRUCTURE

## MASS PROTEST

### Theory of Change

We leverage the power of a base over decision-makers to win concrete reforms & quality of life over the long term.

By engaging in mass disruption to the status quo, we create a crisis and change the political weather.

### Tactics + Demands

Lower risk, gradual escalation (if any); focused on building leadership and capacity;  
**Demands:** Specific & actionable

Mass civil disobedience & escalated action  
**Demands;** Popular demands that appeal to a broad public & change what is winnable.

### Organization

1-on-1 relationships; leadership comes from within the community

Mass trainings & anyone who is compelled can join -- as many people as possible should take action!

### Measuring Success

Incremental reforms that bring concrete improvement in people's lives.

Large shifts in public opinion.

# Momentum Driven Organising

By integrating the best of structure-based organising and mass protest we can build movements that can scale up and win big!

# Active Popular Support

*The* **SPECTRUM of SUPPORT**

# Case Study: Same Sex Marriage (US)

**Target  
the  
Public**

Which side are you on?

Nashville, 1960

---

# 3.5%

“Outcomes of over 300 nonviolent and violent campaigns worldwide from 1900-2006, none of the cases failed after achieving the **active and sustained participation** of just 3.5 percent of the population -- and some of them succeeded with far less than that.” - Erica Chenoweth

Based on movements against dictatorships, for secession or against occupation

=> Few from “democratic” regimes more capable of coopting opposition

---

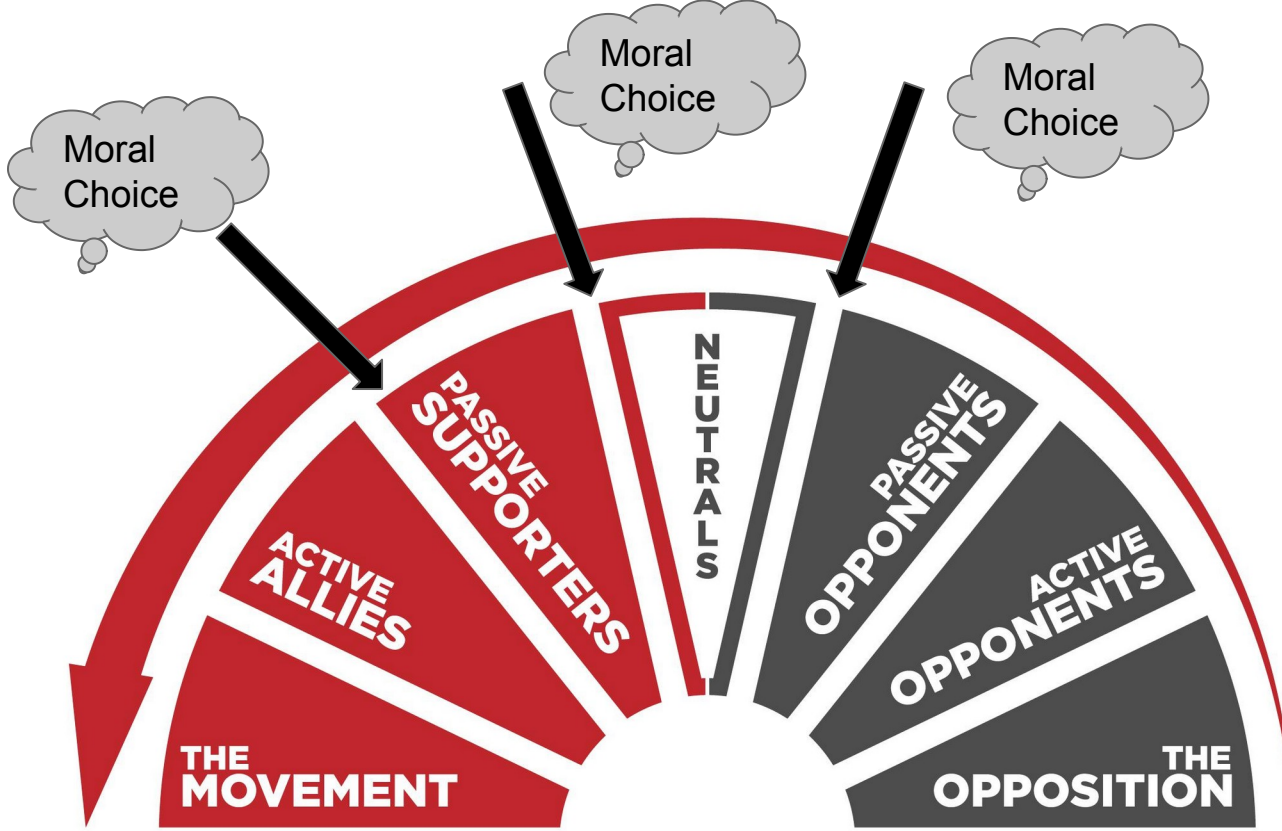

# Two Essential Elements of Popular Support

Win the **support & sympathy** of the majority of the public.

*Passive*

**Sustained participation** in the movement.

*Active*

Movement across this spectrum isn't always the result of conscious decision making.

Often, people shift because an effective action reframes the basic moral questions behind an issue that is otherwise seen as too abstract or complex. It makes people emotionally connect to the issue and choose sides.

# Polarisation

# Polarisation is how you target the public

## Keys to polarisation:

1. Make it simple
2. Make it matter

**“Activists assume that because something is true, it will be meaningful to the people we’re trying to reach. But in fact, the opposite is often the case: *if something is meaningful, people believe it to be true*”**

**Instrumental demands:** What is **winnable** with the leverage we have? Can we force a concession? What is deeply felt only by our members? Is there a clear solution?

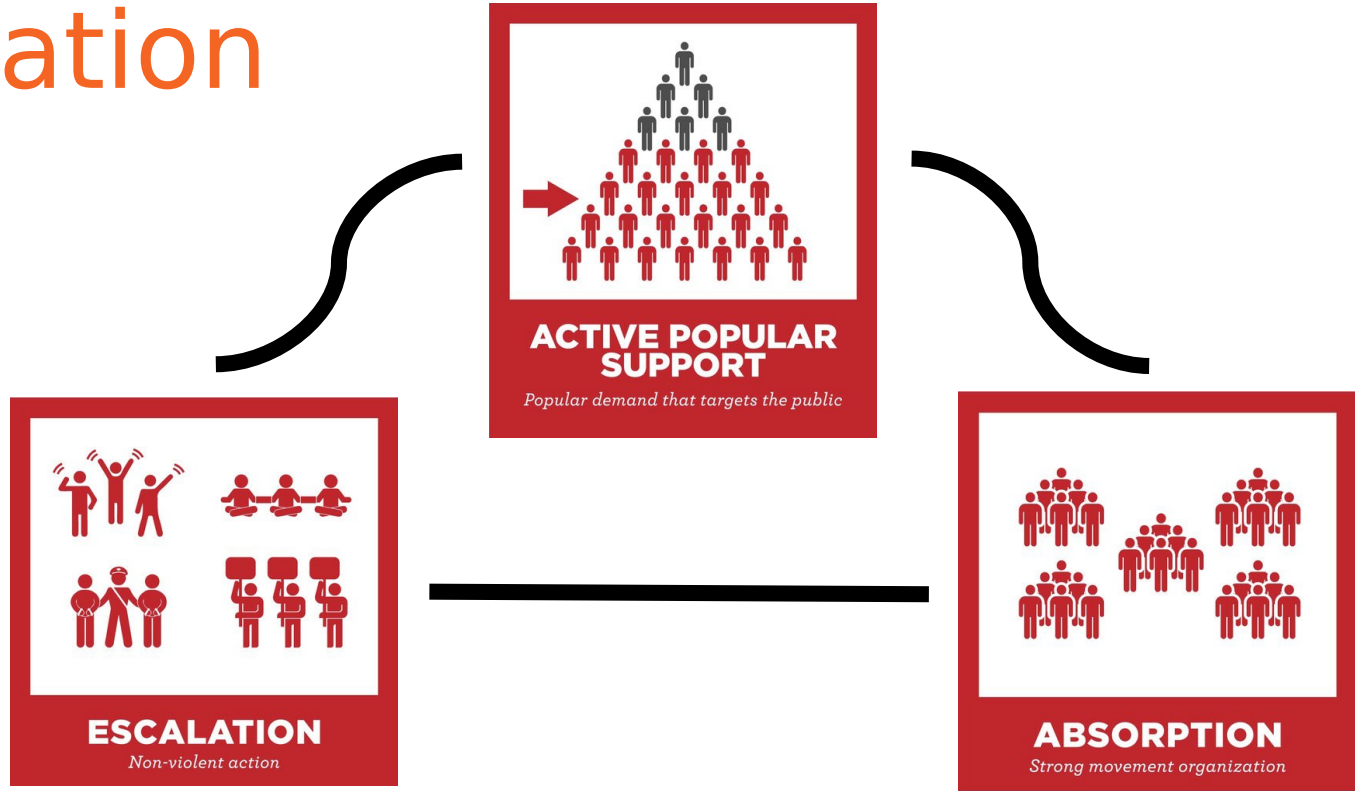

**Symbolic demands:** What are the most **popular** issues around our movement? What is deeply felt by our active+passive supporters? What will **polarise** the public and **dramatise a social problem?**

# Why symbolic demands?

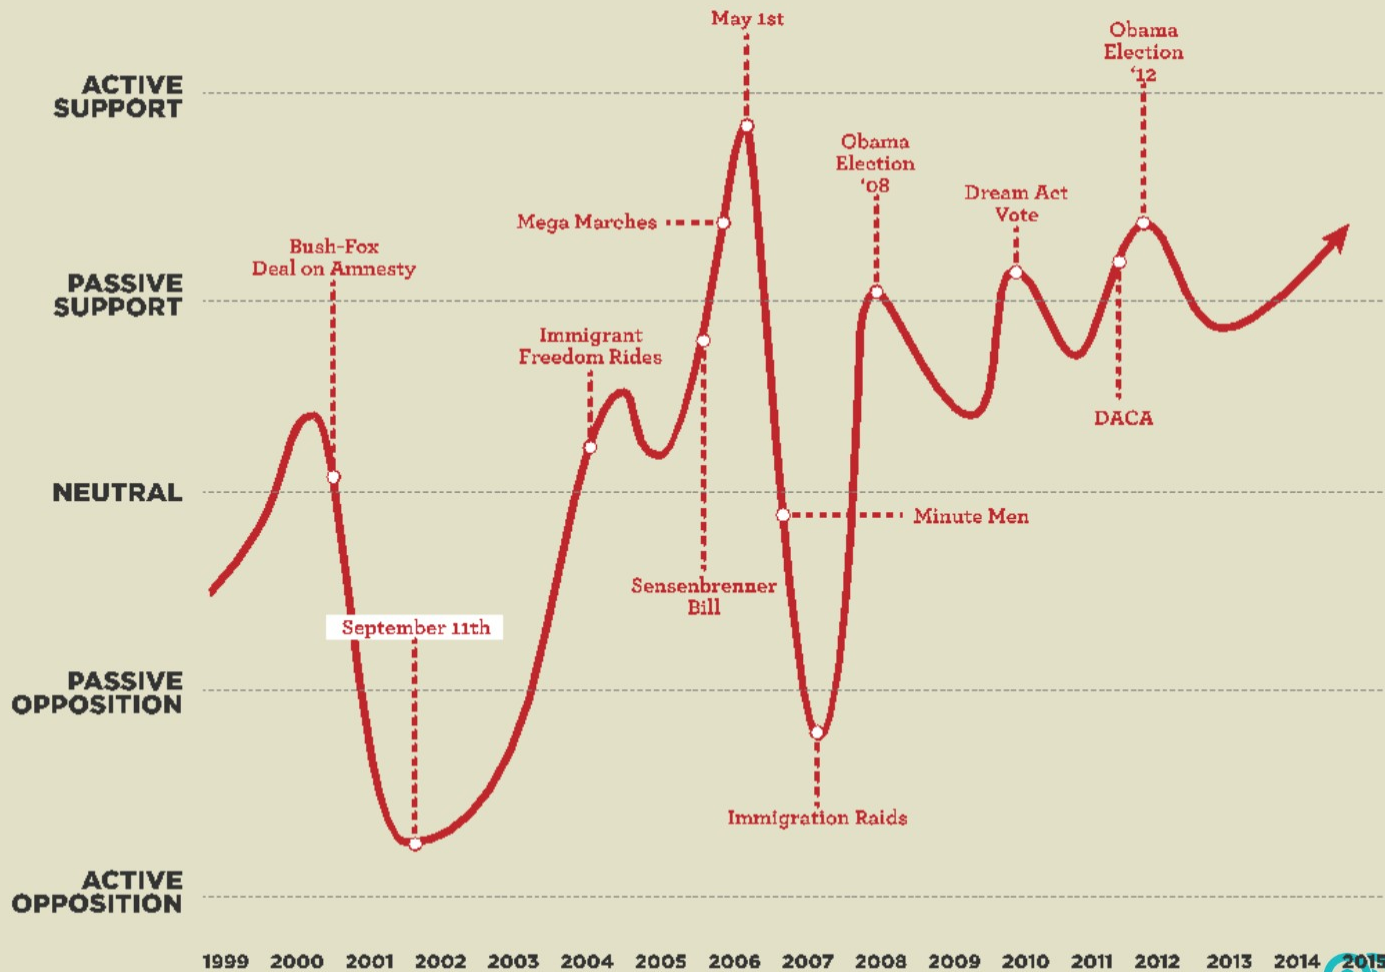

- Open up room for instrumental wins
- Create wiggle room for experimenting with different solutions
- Give people a standard they can measure proposals against
- Reach more people

---

# Escalation

# DIFFERENT SCALES OF ESCALATION:

1. Small actions
  - a. Dilemma & symbolic actions
  - b. Replicable distributed actions
2. Trigger events
3. Moments of the whirlwind

**Trigger event**: a highly publicised incident that dramatically reveals a critical social problem to the public in a vivid way.

It focuses the public's attention on the issue in a way that enables polarisation.

Can be external to the movement or created by the movement.

# Ferguson, BLM

# 1. Active Popular Support

## 2. Escalation

## 3. Absorption

---

# Absorption

**Giving people a next  
thing to do.**

# Mass Training

# BRINGING PEOPLE IN AT SCALE

- Mass Training
- SWARM → Role allocation
- Email lists/social media/Messaging apps
- And others...

# MAJOR KEYS FOR ABSORPTION

- Have as few layers to your structure as possible
- Enable people to take action as quickly as possible
- Have DNA- principles

# Note on Structure

# Roles Principles

---

1. Everybody has a role and you need to hold your role
2. Your role is flexible
3. All roles are about support

# Centralised vs. Decentralised

## Structure

Decision-making and communication are top-down

## Mass Protest

Coordinated by shared strategy, not top leadership

# Spectrum of Decentralization

# Relational Culture

**“Culture eats strategy for  
breakfast”**

# Culture: Principles

## OUR PRINCIPLES AND VALUES

All are welcome who want to adhere to our principles and values

### 1 WE HAVE A SHARED VISION OF CHANGE

Creating a world that is fit for generations to come.

### 2 WE SET OUR MISSION ON WHAT IS NECESSARY

Mobilising 3.5% of the population to achieve system change - using ideas such as "Momentum-driven organising" to achieve this.

### 3 WE NEED A REGENERATIVE CULTURE

Creating a culture which is healthy, resilient and adaptable.

### 4 WE OPENLY CHALLENGE OURSELVES AND OUR TOXIC SYSTEM

Leaving our comfort zones to take action for change.

### 5 WE VALUE REFLECTING AND LEARNING

Following a cycle of action, reflection, learning, and planning for more action. Learning from other movements and contexts as well as our own experiences.

### 6 WE WELCOME EVERYONE AND EVERY PART OF EVERYONE

Working actively to create safer and more accessible spaces.

### 7 WE ACTIVELY MITIGATE FOR POWER

Breaking down hierarchies of power for more equitable participation.

### 8 WE AVOID BLAMING AND SHAMING

We live in a toxic system, but no one individual is to blame.

### 9 WE ARE A NON-VIOLENT NETWORK

Using non-violent strategy and tactics as the most effective way to bring about change.

### 10 WE ARE BASED ON AUTONOMY AND DECENTRALISATION

We collectively create the structures we need to challenge power. Anyone who follows these core principles and values can take action in the name of Extinction Rebellion.

**ESCALATION**  
*Non-violent action*

The Escalation stage is represented by four red icons: two people with raised arms, three people sitting on the ground, two people in a physical struggle, and three people holding protest signs.

**ACTIVE POPULAR SUPPORT**  
*Popular demand that targets the public*

The Active Popular Support stage is represented by a pyramid of red human icons, with a red arrow pointing to the left side of the pyramid.

**ABSORPTION**  
*Strong movement organization*

The Absorption stage is represented by several clusters of red human icons, showing a transition from loose groups to more organized structures.
